# Edible Landscape

## Edible Landscapes for \$500

Start now to harvest fresh produce from your yard this year. Choose from:

- **Mini Orchard:** Includes 2 dwarf or semi-dwarf fruit trees, 2 blueberry bushes and 25 strawberry plants, planted in a 5' x 15' area in your yard.
- **Herb Spiral:** Grow your culinary herbs in an attractive raised, spiral garden. We will build a 4' x 4' x 1.5' rock spiral and plant it with herbs of your choice!
- **Veggie Bed:** We will build a 4' x 8' raised bed from Alaska yellow cedar, fill it with high quality soil/compost and plant vegetable starts.
- **Espalier Trellis:** Let us install an 8' long wire and cedar trellis and plant a dwarf apple, pear or cherry for an attractive espalier.

## Edible Landscape Analysis

Let us help get your edible landscape started

We will spend up to two hours on your site, designing and talking to you about your edible landscape goals. You will receive our recommendations for your garden including:

- A 25 page report with design ideas plant lists, and resources customized to your edible landscape project
- Design sketch showing location of plants and hardscape.
- Follow-up e-mail advice as you install your edible landscape

Cost: \$250\*

*WEdesign is a landscaping company offering design, installation and maintenance services to clients of all sizes in and around King County. We are focused on creating sustainable landscapes that provide food, privacy, shade and enjoyment for you and your family.*
